Education in video

From the home screen you can;

- Share the channel details
- Filter by subject, Publisher, Person, Content type and Language.
- Search with keywords
- Sort by relevance, title, newest and oldest
- Filter by date
- Select to filter results

You can choose to play the whole channel, or you can select individual videos as below.

Access material by clicking on the grey boxes. By hovering over the box you will be able to access the abstract, simply click on ‘see details’.
Education in video

Functions

- Show details of the resource being viewed
- Share details of the resource being viewed
- Use the citation tool to create an APA reference
- View transcript
- Create clips of the original material, highlighting parts of interest.
- Turn captions on and off

both reading and numeracy improves in areas with lots of natural light
Creating a Clip allows you to edit the material so that it only runs the part of the video that interests you. You will need to be logged in to use this function.

You will need to create an account to use some of the functions within this database. Simply:
- click on the person Icon
- Select ‘Sign in’
- Register as user (you will need to register using your Wigan and Leigh College email address)

Step 1
Click on ‘create new clip’

Step 2
Drag the time line sliders to crop the relevant sections

Step 3
Name the clip that you have just created and add a description if desired.

Step 4
Save changes

You will need to be in the relevant video to access any clips that you have made. These are accessible by clicking ‘clips’
